Suit of Receiver Against Directors of Defunct Company Under Way.

[Special to The Times-Dispatch.]

Alexandria, Va., April 28.—Arguments were heard to-day before Judge L. C. Barley, in the Corporation Court, in the chancery suit of Howard W. Smith, receiver for the defunct Virginia Safe Deposit and Trust Corporation, against the directors of that concern, numbering ten in all, including those who were directors before its collapse. The suit is to hold the directors responsible for the losses sustained by the depositors, amounting to approximately \$400,000. It is alleged in the bill filed that the affairs of the concern were mismanaged in paying dividends to stockholders, which, it is alleged, were uncarned. The directors were represented by J. R. and H. B. Caton, Judge J. K. M. Norton, Colonel F. L. Smith, G. L. Boothe and C. Vernon, Ford, the latter of Fairfax C. J. Rivey, former head of the concern, was represented by Attorney John 3. Lloyd George Is Deeply in Debt, land, a post which would otherwise have come to him in the ordinary course of promotion, on the demise of the now moribund Lord Chief Jus

for the disgraceful maltreatment and indignities to which a mob of hood-lums at Nancy recently subjected a exception to not office as ministers of the crown being in debt, owing to their inability to make both ends meet, she has displayed resentment when these debts have been due to foolish speculation on the stock exchange.

Industries the industries of the crown lumbs at Nancy recently subjected a small party of German men and wo-are tourists from Strasbourg, without any interference on the part of the Nancy police, it is only fair to explain that the people of that city are wought up over the frequency much wrought up over the frequency of these visitors from the other side of the neighboring frontier, and exas-perated by the curiosity and by the manifest desire for information dis-played. The people of Nancy have become aware that there 's literally nothing that passes on their side of the boundary line which is not known

without delay on the German side.

A curious illustration of this was furnished the other day in a conversation which took place between some French civilians on the reserve list of officers of the French army, and three German officers of the garrison at Strasbourg, the talk occurring at the thermal resort of Vichy. One of the Frenchmen was relating a comic incident which had happened in some recent manoeuvres, and in which mer the 153rd Regiment of Infantry had been concerned.

"Why that is the regiment com-manded by Colonel de Grandmaison!" interrupted one of the German officers. A few minutes later there was a story told of a couple of soldiers of the Thirty-ninth Artillery. Again one of the German officers interrupted, "That is one of your finest artillery regiments, thanks to the training which ments, thanks to the training which it is receiving from its commander, Colonel Blondel!" Startled, the Frenchmen exclaimed,

"But, for God's sake, do you know by heart the name of all the colonels of the French army."

"Not quite that," replied the senior of the German officers present, "But we know not only the names, but also the records and the characteristics and capacities of all the colonels, and of the generals, in command of the troops of your easternmost provinces, and, more than that, even all about the lieutenant-colonels, the majors, the captains, the staff officers, etc. each of our casinos (military clubs) we have one o its employes assigned to the duty of keeping the French army list thoroughly up to date, and we get from headquarters at Stras-bourg all the information we need at the casino to supplement the data

contained in the year book."

Now while this shows extraordinary care and foresight on the part of the German War Department, in thus acquainting its own officers in Alsace and Lorraine with the qualities and the weaknesses of the French officers stationed on the other side of the frontier, and with whom they would come into immediate conflict in the event of war, it is not precisely pleasant for the French people to know that they can keep secret from the Germans. They cannot forget that in the war of 1870, the German officers knew far more about the topography of France, not only the high roads, but even the by-ways and short cuts French officers themselves that the latter's lives should be completely bared to the German officers in Alsace-Lorraine, is something new to them, and has created a most unpleasant and exasperated a most un-flesh and it is necessary to exact the pleasant and exasperated impression. It is necessary to explain this der to understand what has led up to these recent anti-German manifesta-tions in the eastern provinces of

Oil Portrait of Slain Judge Is Placed in Courtroom.

[Special to The Times-Dispatch.] Pulaski, Va., April 28.—A splendid oil portrait of the late Judge Thornton L. Massie was placed in the courtroom of the Pulaski County courthouse to-day. It hangs immediately over the bench which he occupied when sitting during the session of the Circuit Court of the county. The picture is framed in a handsome gold-tinted frame. The picture was placed through the influence of a number of friends in Pulaski. Judge Massie, whom the whole city loved as one of her best citizens, gave his life in the discharge of his dutles while holding the regular session of the Circuit Court of Carroll County at Hillsville, March 14, 1912, when he, with the Commonwealth's Attorney, W. BUND SALE SEEMS ENTIRELY REGULAR

Minnesota Investigating Committee Gets Information From Virginia.

Neither public record nor personat memory avails to recall any irregularity in connection with the sale of Virginia State bonds to the State of Minnesota, which is now the subject of an investigation by a special committee of the Minnesoita Legslature. Although the situation is not clearly understood here, it is supposed froim correspondence between the committee and Second Auditor Rosewell Page, that there must be suspicion of graft or of improper conduct somewhere.

The State of Minnesota owns Virginla Century bonds to the par value of \$2,115,000. These were purchased in the open market, probably from the old certificate holders, who took advantage of the debt settlement and accepted bonds. At any rate, none of circumstances in connection with

the purchase is known here.

As it had a right to do, the State of Minnesota exchanged these coupon bonds for registered bonds. To effect this, the bonds were tendered to the Second Auditor at his office, where the old ones were surrendered and the new ones issued. State Treasurer Asher W. Harman recalls that the Minnesota officials drove to the Capitol in a carriage, having the bonds in a trunk, which was carried in by the driver. It seems this occurred on August 27, 1897, although other transfers were made between that time and 1901.

The facts have been communicated to R. B. Child, chairman of the legislative investigating committee at St. Paul, by Second Auditor Page. The chairman has inquired what names of Minnesota citizens appear on the books in concetion with the purchase of bonds, but there seems to be only one such case, that of an individual who bought a bond for \$5,000, and this probably has no bearing on the situa-tion. Everything was regular as far tion. Everything tas Virginia knows.

Minnesota's general public school fund owns \$1.625,000 of the bonds; the State University fund, \$335,000; the internal improvement land fund, and the State institutions fund, \$100,000.
